

K-LOVE radio is an important to our family. It is virtually the only radio station we can tune to without having to worry about the program content. It is always family friendly. I know there are many businesses in our area that keep thier radios tuned to it. Our family travels alot. It is great for us to know that virtually anywhere we travel in the USA we can tune in. I feel it would be a great disservice to our community and many others for LPFM to take precedence over current translators. Thank you
